Subject index

Abstracts
  American Society of Nephrology, November 25-26, 1975, 397
  EDTA, August 26-29, 1975, 123
  Societé de Néphrologie, February 1, 1975, 274
  South African Society of Nephrology, July 1-2, 1974, 119
  The Renal Association, May 21, 1975, 338
  The Renal Association, February 20, 1975, 60
Acetate
  delivery of, to hemodialysis patients (abstr.), 433
  metabolism of, during hemodialysis and infusion (abstr.), 432
  metabolism of, para-aminohippuric acid transport (abstr.), 470
Acetylcholine
  responses of precapillary sphincters and nonsphincter resistance of arterioles to (abstr.), 482
Acetazolamide
  renal phosphate reabsorption, 98
Acid
  transport across toad bladder (abstr.), 487
Acid-base balance
  disturbances of, 1
  effect of potassium chloride on (abstr.), 473
  renal response to hypocapnia, 376
Acidosis
  activation of the pituitary-adrenal-renal glutaminase I axis (abstr.), 493
  and contraction alkalosis, 279
  correction by the kidney during isometric expansion of extracellular fliud (abstr.), 479
  distal sodium delivery and avidity in (abstr.), 491
  effects on immunoreactive parathyroid hormone, 262
  lactic acid (abstr.), 405
  maladaptive effect of secondary hypocapnia on (abstr.), 485
  nitrogen metabolism, adaptions in (abstr.), 338
  potassium, ammonia and urinary acidification in (abstr.), 480
  tissue buffering in (abstr.), 412
  in the vitamin D-deficient chick (abstr.), 397
Acute renal failure
  beta-adrenergic blockade in (abstr.), 127
  complicating transplant rejection (abstr.), 496
  differential diagnosis of (abstr.), 410
  due to nontraumatic rhabdomyolysis (abstr.), 414
  due to snake bite (abstr.), 121
  effects of furosemide on, 362
  glomerular and tubular alterations in (abstr.), 463
  initiation phase of (abstr.), 459
  long-term follow-up in (abstr.), 120
  norepinephrine-induced, prevention of (abstr.), 457
  pathogenesis of (abstr.), 129
  pathophysiology of (abstr.), 455
  pathophysiology of a nephrotoxic model of, 27
  renal biopsy in (abstr.), 60
Acute urate nephropathy
  pathogenesis and prevention of (abstr.), 456
Aorto-caval fistula
  renal Na-K-ATPase in dogs with (abstr.), 494
Adrenalectomy
  urea excretion in rats, 303
Adsorbents
  ten-liter dialysate supply system with (abstr.), 131
Aging
  effect on plasma renin and aldosterone, 325
Albumin
  disappearance rate of, as a measure of blood volume and plasma renin activity (abstr.), 444
  effect of increased filtered load of, on excretion of (abstr.), 416
  kidney preservation by perfusion of (abstr.), 125
  permaselectivity of glomerular capillary wall, 212
  plasma compartments in renal cortex (abstr.), 467
Aldosterone
  effect of aging on, 325
  effect of potassium and ACTH on, in anephric patients (abstr.), 129
  effect on potassium excretion by isolated perfused kidney (abstr.), 491
  effect on water excretion in hypothyroid rats (abstr.), 486
  in hypertensive kidney allograft recipients (abstr.), 124
Alkalosis
  and dilution acidosis, 279
Allograft
  anti-beta cell activity in renal recipients (abstr.), 496
Alpha-adrenergic stimulation
  role in antidiuresis of volume-expanded, anesthetized dogs (abstr.), 471
Aluminum hydroxide
  effect on calcium, phosphorus and aluminum metabolism, 61
Amide
  transport across toad bladder (abstr.), 488
Amikacin
  pharmacokinetics of, in dialysis patients (abstr.), 428
Amino acid
  alterations in, during potassium loading (abstr.), 457
  effect on growth in renal failure, 349
  plasma and cerebrospinal composition normally and in renal disease (abstr.), 338
Aminonucleoside nephrosis
  proteinuria in, 219
Ammoniagenesis
  four-pentenoic acid induced (abstr.), 489
Androgen
  priapism in dialysis patients (abstr.), 125

Angiotensin
blockade of, in patients with cirrhosis and ascites (abstr.), 443
and blood pressure in chronic renal failure (abstr.), 124
effect on protein filtration in kidney, 105
intrarenal renin release mechanisms, 158
isolated rat kidney response to (abstr.), 478
physiologic effects in the rabbit (abstr.), 443
renin-angiotensin system in acute renal failure (abstr.), 463
renal localization in glomerular mesangial cells, 245
renal vascular receptors for (abstr.), 444
Anion
permeation at the proximal tubule (abstr.), 465
specificity of stimulators on transport of (abstr.), 479
Anoxia
effect on renal transport processes (abstr.), 469
Antibiotic
concentrations in renal disease (abstr.), 408
Anticoagulant
value in renal vein thrombosis (abstr.), 415
Anticoagulation
heparin use in glomerulonephritis, 140
Antidiuretic hormone
disulfide bridge and C-terminal tripeptide in, 355
in increased left atrial pressure, 292
Antigen
Escherichia coli O, 316
relationship between LD and SD (abstr.), 497
Antiglomerular basement membrane nephritis
failure of heparin to affect, 140
heparin therapy in, 72
Arterioles
in glomerular hemodynamics (abstr.), 123
juxtamedullary glomerular, 239
Arteriosclerosis
low rate of, in transplant patients (abstr.), 502
Atrial fibrillation
hemodialysis-induced (abstr.), 434
Atrial pressure
diuretic response to, 355
Autoradiography
angiotensin II localization by, 245
Autoregulation
intrarenal renin release mechanism, 158
Azotemia
pathogenesis of myocardial calcification in (abstr.), 400

Basement membrane
chemical properties in nephropathies (abstr.), 128
Beta-blockade
acute effect on renal function (abstr.), 132
for reducing severity of acute renal failure (abstr.), 127
Bicarbonate
bicarbonaturia of parathyroid hormone, 88
reabsorption, and chronic renal failure (abstr.), 455
reabsorption of, by isolated perfused rat kidney (abstr.), 486
Bicarbonate excretion
renal response to hypocapnia, 376
Bicarbonaturia
of parathyroid hormone, 88
Bile duct obstruction
renal function before and after hemorrhage in rats with (abstr.), 338
Bile salts
vascular sensitivity to noradrenaline, 149
Biopsy
in acute renal failure (abstr.), 60
comparison of open surgical and percutaneous specimens (abstr.), 407
specimens during transplant rejection (abstr.), 448
Blood flow
in carotid nerve stimulation and hemorrhage, 135
effect of indomethacin, meclofenamate and Inactin on (abstr.), 475
renal intracortical, response to saline loading (abstr.), 477
Blood pressure
effect of saralasin acetate on (abstr.), 438
Blood volume
in essential hypertension, 42
Bowel flora
in renal failure (abstr.), 462
Brush border
in rabbit proximal nephron, 343
Buselmeier shunt
follow-up of (abstr.), 423

Calcification
high molecular weight inhibitors of (abstr.), 398
Calcium
effect of acidosis and alkalosis on renal tubular reabsorption of (abstr.), 404
effect on phosphate reabsorption in thyroparathyroidectomized dog (abstr.), 403
hypercalcemia after transplantation (abstr.), 124
Calcium absorption
in the duodenal mucosa, 110
effect of 25-hydroxycholecalciferol in chronic renal disease, 320
Calcium-binding protein
in the duodenal mucosa, 110
Calories
effect on growth in renal failure, 349
Carbenicillin
use in renal failure (abstr.), 120
Carbon dioxide
osmometric measurement of, 56
Cardiac output
in essential hypertension, 42
Cells
papillary collecting duct, 191
Cerebrospinal fluid
amino acid composition in health and renal disease (abstr.), 338
Childhood renal disease
IgE, IgG and alpha-2-macroglobulin in (abstr.), 415
Chloride
reabsorption of, in human collecting duct (abstr.), 480
transport of, in rabbit cortical collecting tubules (abstr.), 477
transport of, by toad bladder (abstr.), 492
Cholecalciferol
effect on calcium absorption in renal disease, 320
Cholesterol
vascular sensitivity to noradrenaline, 149
Choline
homeostasis in uremia and during dialysis (abstr.), 432
Chronic renal disease

arterial calcifications in (abstr.), 429
Chronic renal failure
concentrating defect of (abstr.), 458
plasma immunoreactive glucagon in (abstr.), 459
reduction of triglyceride levels in (abstr.), 419
at Saint John, New Brunswick, Canada (abstr.), 426
salt-losing tendency in (abstr.), 457
Cirrhosis
plasma renin activity and plasma aldosterone in (abstr.), 438
Clofibrate
for treatment of uremia hypertriglyceridemia (abstr.), 412
Clomiphene
effect on gonadal function in uremic men (abstr.), 460
Collecting duct cells
preparation for study, 191
Compensatory hypertrophy
unilateral nephrectomy, 166
Compensatory renal growth
age-dependent characteristics of, 21
effect of actinomycin D and radiation on (abstr.), 491
Complement
components in glomerulonephritis (abstr.), 125
glomerular receptor in immune-complex renal disease (abstr.), 448
Congenital nephrotic syndrome
selectivity of proteinuria in, 255
Copper sulfate
toxicology (abstr.), 121
Creatinine phosphokinase
in chronic renal failure (abstr.), 405
Crescent formation
role of the macrophage in (abstr.), 445
Cyclic adenosine monophosphate
in compensatory renal hypertrophy and neonatal kidney growth (abstr.), 462
effect on protein kinase in renal medullary cells (abstr.), 466
nucleotide phosphodiesterases in rat kidney, 284
renal phosphate reabsorption, 98
role in renal cortical vasodilation and increased renin secretion (abstr.), 401
and transport of organic acids by renal cortex (abstr.), 471
Cystinosis
renal allograft transplantation for (abstr.), 499
Cytomegalovirus
transmission with renal allograft, 387
Cytotoxicity
and renal allograft rejection (abstr.), 502

Dextran
permaselectivity of glomerular capillary wall, 212
Diabetes mellitus
atypical nondiabetic proteinuria and renal failure in patients with (abstr.), 61
diabetic vascular lesions in normal kidneys transplanted into patients with (abstr.), 499
lactic acidosis in (abstr.), 412
Dialysis
and anti-N (abstr.), 427
combined hemodialysis-charcoal perfusion (abstr.), 132
comparison of short and long (abstr.), 123
encephalopathy syndrome in (abstr.), 422
glomerular filtration rate while on, 185
hollow fiber occlusion due to maldistribution of blood? (abstr.), 123
at home (abstr.), 431
lipidic pattern in (abstr.), 130
lipids in uremic patients receiving (abstr.), 130
migration of plasticizer from blood tubing (abstr.), 130
model to increase utilization of existing facilities (abstr.), 430
plasma lipid abnormalities in (abstr.), 408
personal monitor with cartridge reuse (abstr.), 126
polymethylmethacrylate capillary kidney (abstr.), 130
portable/wearable artifical kidney (abstr.), 131
short-time (abstr.), 128, 131
single puncture (abstr.), 126
Sparks mandril for (abstr.), 127, 128
with a ten-liter system and adsorbents (abstr.), 131
treatment of ascites in patients on (abstr.), 423
undried cellulose gel film for (abstr.), 127
vitamin D therapy in bone disease due to (abstr.), 130
Diet
amino acids in uremia (abstr.), 416
effect on kidney weight and function (abstr.), 474
phosphate and bicarbonate reabsorption after dietary loading (abstr.), 403
Diphosphonates
renal secretion of, 6
Distal tubule
mammalian colon: a model of function of (abstr.), 466
Diuresis
response to increased left atrial pressure, 355
Diuretics
intrarenal renin release mechanisms, 158
renal mitochondrial effects of (abstr.), 480
sites of Ca, Mg and phosphate absorption (abstr.), 402
DNA
degradation of by extracorporeal circulation (abstr.), 454
DOCA
effect on rabbit isolated perfused cortical collecting tubules (abstr.), 487

Edema
natriuresis in (abstr.), 128
Editorials
dilution acidosis and contraction alkalosis, 279
pathogenesis of the gouty kidney, 65
primary glomerular filtration barrier, 197
role of the kidney in potassium homeostasis, 1
Electrolytes
concentration in canine renal lymph (abstr.), 458
urinary excretion of, in potassium-adapted rats (abstr.), 473
Endotoxin
protective effect of tolerance to, in acute renal failure (abstr.), 463
Escherichia coli
immogenicity in upper urinary tract infection, 316
urinary infection in the rat, 233
Essential hypertension
altered blood volume regulation in, 42
Ethacrynic acid
effect on intrarenal renin release mechanisms, 158
Experimental nephritis

failure of heparin to affect, 140
Extracellular fluid volume
effect on bicarbonaturia of parathyroid hormone, 88

Fanconi syndrome
changes in Cd content and Na-K-ATPase activity of kidney microsomes (abstr.), 489
metabolism of vitamin D3 in (abstr.), 397
Filtration rate
glomerular filtration barrier and, 197
in the patient receiving repetitive hemodialysis, 185
Fluorescence method
for micro-inulin determinations, 334
Furosemide
absorption, bioavailability and clearance in chronic renal failure (abstr.), 126
effect after sulfate loading on chloride transport in rat kidney (abstr.), 483
effect on acute renal failure, 362
effect on acute renal failure (abstr.), 463
effect on adenine nucleotide in rabbit kidney slices (abstr.), 484
excretion rate of, and natriuretic effect (abstr.), 461

Gastrin
in chronic renal failure (abstr.), 129
Gentamicin
nephrotoxicity in the rat (abstr.), 456
renal extraction of (abstr.), 471
toxicity in man (abstr.), 406
Globin
synthesis in uremia (abstr.), 128
Glomerular count
and compensatory renal growth, 21
Glomerular crescents
in epinephrine-infused dogs (abstr.), 471
Glomerular dynamics
effects on prostaglandin E_1 and bradykinin on (abstr.), 466
Glomerular filtration
following immunologic glomerular injury (abstr.), 456
Glomerular filtration rate
glomerular capillary wall and, 212
glomerular filtration barrier and, 197
in the patient receiving repetitive hemodialysis, 185
Glomerular neogenesis
age-dependent characteristics of, 21
Glomerular permeability
role of molecular charge in (abstr.), 492
Glomerular slit diaphragm
isoporous substructure, of, 48
Glomerular transport
in glomerular slit diaphragm, 48
Glomerulonephritis
associated with myoglobinuria (abstr.), 413
brush border antibodies of (abstr.), 450
chronicity after acute poststreptococcal (abstr.), 453
chemical properties of basement membrane in nephropathies (abstr.), 128
chlorambucil and azathioprine therapy in (abstr.), 274
complement components in (abstr.), 125
edematous phase and a natriuretic factor (abstr.), 126
failure of heparin to affect, 140
heparin therapy in, 72
heparin therapy in (abstr.), 275
idiopathic crescentic (abstr.), 406
with immune deposits in skin (abstr.), 414
immunostimulation in (abstr.), 447
leukocyte adherence after poststreptococcal (abstr.), 453
membranoproliferative and dense deposit disease (abstr.), 409
membranoproliferative, and hyperchloremia (abstr.), 410
membranoproliferative, a third ultrastructural variety of (abstr.), 454
mesangiocapillary (abstr.), 60
mesangial proliferative (abstr.), 416
poststreptoccal (abstr.), 451
poststreptoccal and depressed cellular immune response (abstr.), 446
poststreptococcal, necrotizing arteritis in (abstr.), 413
prognosis after poststreptococcal (abstr.), 418
Glomerulus
endogenous plasma proteins in (abstr.), 489
Glucocorticoids
effect on urea excretion, 303
Gluconeogenesis
in obstructive uropathy (abstr.), 457
regulation by calcium ion and prostaglandin E_1 (abstr.), 401
relationship to sodium transport in isolated perfused rat kidney (abstr.), 490
Glucose
effect of diuretics on transport of (abstr.), 494
regional metabolism of, in cat kidney (abstr.), 475
relationship of GFR and hypoalbuminemia to renal absorption of (abstr.), 132
Goodpasture's syndrome
plasmapheresis for (abstr.), 409
Gout
pathogenesis of, 65
Groote Shuur Hospital
renal disease at (abstr.), 121
Growth
compensatory kidney growth, and renal function (abstr.), 492
in experimental renal failure, 349
Growth hormone
increase in uremia (abstr.), 417
renal handling of (abstr.), 480
Guanidine
in chronic renal failure (abstr.), 431

Hematuria
benign familial (abstr.), 408
Hemodialysis
access modalities in (abstr.), 430
angiography of arteriovenous communications for (abstr.), 434
body weight as a guide to duration of thrice-weekly dialysis (abstr.), 432
cardiac failure in patients on (abstr.), 430
charcoal hemoperfusion combined with (abstr.), 132
coil hemodialyzer membrane deposits (abstr.), 429
comparison of short and long (abstr.), 123
digoxin dosage, kinetics and distribution in patients on (abstr.), 425
effect of iron therapy on (abstr.), 429

glomerular filtration rate while on, 185
hemosiderosis due to iron administration during (abstr.), 61
hollow fiber occlusion due to maldistribution of blood? (abstr.), 123
at home, analysis and outcome of patients trained for (abstr.), 433
lipidic pattern in (abstr.), 130
lipids in uremic patients receiving (abstr.), 130
in management of arsenic poisoning (abstr.), 435
in management of chloral hydrate poisoning (abstr.), 436
metabolic consequences of (abstr.), 435
migration of plasticizer from blood tubing (abstr.), 130
neuropsychological comparison of patients on home peritoneal dialysis and home hemodialysis (abstr.), 424
personal monitor with cartridge reuse (abstr.), 126
polymethylmethacrylate capillary kidney (abstr.), 130
portable/wearable artificial kidney (abstr.), 131
psychiatric evaluation for (abstr.), 120
self-care (abstr.), 435
serotonin uptake by platelets in patients on (abstr.), 462
single puncture (abstr.), 126
short-time (abstr.), 128, 131
sodium acetate metabolism in (abstr.), 426
Sparks mandril for (abstr.), 127
with a ten-liter dialysate supply system with adsorbents (abstr.), 131
undried cellulose gel film for (abstr.), 127, 128
vitamin D therapy in bone disease due to (abstr.), 130
in vitro biological evaluation of materials used in (abstr.), 428
without a fistula or shunt (abstr.), 431

Hemodynamic resistance
in the superficial renal vasculature (abstr.), 494

Hemolytic uremic syndrome
complement activation in (abstr.), 450
postpartum, and red blood cell defect (abstr.), 420

Hemoperfusion
charcoal (abstr.), 424

Hemosiderosis
due to iron administration during dialysis (abstr.), 61

Henle's loop
fluid absorption from the descending limb of (abstr.), 465
magnesium transport in (abstr.), 470

Heparin
antibasement membrane nephritis therapy, 72
failure to affect glomerulonephritis, 140
for hemodialysis patients with high bleeding risk (abstr.), 436

Hepatitis B
role of dialysis machine malfunction in transmission of (abstr.), 434

Hepato-renal syndrome
vascular sensitivity to noradrenaline, 149

Histocompatibility testing
after donor spleen implantation (abstr.), 132

Hydrogen ion transport
relation to oxidative metabolism (abstr.), 467

Hydronephrosis
canine renal lymphatic system in (abstr.), 458

Hyperamylasemia
in chronic renal failure treated with hemodialysis (abstr.), 425

Hyperkalemia
efficacy of bicarbonate therapy in (abstr.), 411
relationship to survival in anephric rats (abstr.), 419

Hypertension
altered blood volume in, 42
arteriolar and glomerular damage in (abstr.), 441
blood pressure-sodium/volume-renin interrelations in renal failure (abstr.), 124
in chronic dialysis patients (abstr.), 440
diagnosis and prognostic correlates in children (abstr.), 442
DNA synthesis in (abstr.), 488
due to renal arterio-venous malformation (abstr.), 441
etiology in polycystic kidney disease (abstr.), 442
and juxtaglomerular cell tumor (abstr.), 437
meditation therapy for (abstr.), 443
prevention in chronic renal failure by reduction of salt intake (abstr.), 438
plasma renin activity in (abstr.), 437
proteinuria and blood pressure in (abstr.), 439
psychotherapeutic control of (abstr.), 444
and renal arteriolar elastic tissue (abstr.), 440
and renal failure (abstr.), 121
renal papillary plasma flow in (abstr.), 444
in transplanted patients (abstr.), 123

Hypertrophy
compensatory renal growth and age, 21
unilateral nephrectomy and, 166

Hyperventilation
effect on collecting duct hydrogen ion secretion (abstr.), 476

Hypoaldosteronism
metabolic acidosis of (abstr.), 407

Hypocapnia
renal response to, 376

Hypomagnesemia
postobstructive (abstr.), 421

Hyponatremia
reset osmostat as a cause of (abstr.), 409

Hypotension
carotid sinus nerve stimulation and hemorrhage, 135
effect in rat kidney (abstr.), 459

Hypothermia
substrate utilization of dog kidney cortex during (abstr.), 497

Hypothyroidism
glomerular adjustments in (abstr.), 469

Hypouricemia
in the syndrome of inappropriate antidiuretic hormone secretion (abstr.), 406

IgA
and glomerular disease (abstr.), 339

Immune complex localization
effects of altered glomerular permeability on (abstr.), 447

Immune complex glomerulonephritis
failure of heparin to affect, 140
morphologic determinants of albuminuria in (abstr.), 449

Immunosuppression
in renal allotransplantation (abstr.), 501

Indomethacin
antagonistic effect on furosemide in hypertension (abstr.), 441

effect on plasma renin activity (abstr.), 130
potentiation of cyclic AMP response to vasopressin by (abstr.), 484
treatment of refractory nephrotic syndrome (abstr.), 420
Infection
diagnosis in kidney and bladder, 176
of the urinary tract with *Escherichia coli*, 233
Influenza
antibody response to vaccination in transplant patients (abstr.), 500
Insulin
renal metabolism of (abstr.), 489
Intercellular channels
in rabbit proximal nephron, 343
Inulin
clearance during adaptation to extrauterine life (abstr.), 483
fluorescent method for determination of, 334
Ionic transport
effect of saline expansion (abstr.), 403
Iron
effect of aluminum hydroxide on absorption of (abstr.), 417
effect of blood loss in chronic renal failure on (abstr.), 127
Ischemia
pathophysiology of nephrotoxic renal failure, 27

Jaundice
effect on vascular sensitivity to noradrenaline, 149; abstr., 119
line, 149; abstr., 119
renal blood flow in (abstr.), 119
Juxtamedullary glomerular arterioles
connection between afferent and efferent, 239

Kallikrein
in nephritis and nephrosis (abstr.), 449

Lactic dehydrogenase
in diagnosis of kidney and bladder infections, 176
Lateral cell walls
in rabbit proximal nephron, 343
Leigh's syndrome
impairment of renal tubular acidification mechanism in (abstr.), 413
Leucocyte function
in chronic renal failure and after transplantation (abstr.), 131
Leutenizing
chronic renal failure response to (abstr.), 121
Lipids
in acute renal failure (abstr.), 129
effect of antihypertensive regimens on (abstr.), 436
in uremic patients receiving dialysis (abstr.), 130
Lithium
effect on proximal and distal tubular function (abstr.), 479
hypocalciuric effect of (abstr.), 401
renal effects of antidiuretic hormone on (abstr.), 472
Lymphoceles
in homograft recipients (abstr.), 129
Lymphocytes
in hemodialysis and hepatitis patients (abstr.), 446
in pyelonephritis, 80

Macula densa
absence of transport ATPase (abstr.), 467
intrarenal renin release mechanisms, 158
Malaria
nephropathy in (abstr.), 60
Malawi
renal disease in (abstr.), 119
Mammography
for diagnosing secondary hypoparathyroidism (abstr.), 122
Mannitol
functional and histological effect of amphotericin B (abstr.), 416
treatment of dialysis muscle cramps (abstr.), 432
Mercuric chloride
induced acute renal failure, and furosemide, 362
Mesangial cells
angiotensin II renal localization in, 245
phagocytic function in renal disease (abstr.), 338
Mesangiocapillary glomerulonephritis
with dense deposits in basement membrane (abstr.), 60
Metabolic alkalosis
in the absence of electrolyte depletion (abstr.), 484
Micropuncture
chronic repuncture of dog kidney, 53
effect of sodium intake in uremia, 14
pathophysiology of nephrotoxic renal failure, 27
protein filtration in the kidney, 105
Mineralocorticoid
lack of effect in toad bladder (abstr.), 439
Molecular sieving
with osmotic vs. hydrostatic ultrafiltration (abstr.), 431
Multiple myeloma
Bence Jones proteinuria and renal failure in (abstr.), 409
Muscle cramps
quinine sulfate to prevent (abstr.), 414

Natriuresis
in edematous states (abstr.), 128
prostaglandin inhibiters as a cause of (abstr.), 439
Nephrectomy
for intractable proteinuria (abstr.), 420
renal function before and after, 166
Nephritis
acute interstital, due to methicillin (abstr.), 411
anti-glomerular basement membrane mediated (abstr.), 422
complement-independent nephrotoxic (abstr.), 447
progressive lupus (abstr.), 410
treatment with vasoactive amine antagonists (abstr.), 448
Nephrons
examination by scanning electron microscopy (abstr.), 448
glutathione transferase activity in (abstr.), 474
Nephropathy
diabetic, in chronic renal failure treated with dialysis (abstr.), 423
diabetic, immunopathology of (abstr.), 451
malarial (abstr.), 60
resulting from diphenylhydantoin sensitivity (abstr.), 450
resulting from potassium depletion (abstr.), 454
rifampin-induced (abstr.), 411
tubular function in (abstr.), 121
Nephrotoxic renal failure
pathophysiology of, 27

Nephrotic syndrome
acute renal failure in (abstr.), 417
adult idiopathic (abstr.), 408
associated with a new storage disorder (abstr.), 453
filtration fraction in (abstr.), 418
in Hodgkin's disease (abstr.), 451
methylprednisolone therapy in (abstr.), 415
proteinuria in, 219
selectivity of proteinuria in, 255
steroid therapy for (abstr.), 407
tubular sodium reabsorption in (abstr.), 418
Nerve of Hering
stimulation of, and intrarenal blood flow, 135
Neuropathy
effects of hemodialysis and transplantation on (abstr.), 414
sequential nerve conduction velocities and electromyograms in (abstr.), 430
Nitrogen hydroxide excretion
control of, in the rabbit (abstr.), 495
Noradrenaline
vascular sensitivity to, 149; abstr., 119
Norepinephrine
in hemodialysis patients (abstr.), 124

O antigen
Escherichia coli in urinary tract infection, 316
Obstructive uropathy
adenylate-cyclase system in (abstr.), 464
Oliguria
in the anesthetized dog (abstr.), 60
Osmometric method
measurement of total CO_2, 56
Osteodystrophy
effect of vitamin D administration on, in dialysis patients (abstr.), 126
management with vitamin D_3 (abstr.), 407
reversal with 1-alpha-hydroxyvitamin D_3 (abstr.), 397
treatment with 1-α-hydroxycholecalciferol (abstr.), 130
Oxyprenalol
antihypertensive effect of (abstr.), 441

Papillary collecting duct cells
preparation of, for study, 191
Para-aminohippurate
stimulation of, in maturing rabbit kidney (abstr.), 482
Parathyroid hormone
bicarbonaturia of, 88
effect of acidosis on, 262
effect on adenosine monophosphate and electrolytes (abstr.), 125
effect on plasma renin activity (abstr.), 120
effect on renal tubular HCO_3^- reabsorption (abstr.), 466
renal phosphate reabsorption, 98
role in PO_4 excretion (abstr.), 403
tubular antiluminal membrane in the renal degradation of (abstr.), 400
Pentose shunt
role in urinary acidification (abstr.), 486
Perfusion pressure
effect on uteroplacental blood flow (abstr.), 445
and sodium excretion (abstr.), 483
Peritoneal dialysis
Candida peritonitis as a complication of (abstr.), 423
long-term home (abstr.), 426
maintenance (abstr.), 120
with a subcutaneous peritoneal catheter (abstr.), 435
Peritonitis
peritoneal effluent cellularity as a predictor of (abstr.), 427
Peritubular capillary permeability
to neutral dextrans and albumin (abstr.), 472
Phosphate
effect of inhibitors on reabsorption of, 98
effects of phlorizin and insulin on tubular reabsorption of (abstr.), 472
effect of parathyroid hormone on reabsorption of (abstr.), 400
effect of vitamin D_3 on absorption of (abstr.), 398
excretion of, during phosphate and saline loading (abstr.), 399
renal handling of, following unilateral nephrectomy (abstr.), 402
transport of, in phosphate-depleted dogs (abstr.), 405
Phosphaturia
during acute hypercapnea (abstr.), 404
Phosphodiesterase
in rat kidney, 284
Phosphorus
binder for hyperphosphatemia prevention in dialysis patients (abstr.), 128
effects of calcitonin and vitamin D_3 on renal handling of (abstr.), 402
Plasma volume expansion
changes in HCO_3 and H_2O fluxes during (abstr.), 483
Plasticizer
migration from hemodialysis blood tubing (abstr.), 130
Platelet function
in chronic peritoneal dialysis patients (abstr.), 429
Polyanions
permaselectivity of glomerular capillary wall, 212
Polycystic kidney disease
inferior vena caval obstruction with (abstr.), 432
Polymorphonuclear neutrophils
effect of lysates of, on dog kidney (abstr.), 460
Polypeptide hormones
renal receptors for (abstr.), 465
Polythiazide
effects on sodium and calcium clearances (abstr.), 399
Polyuria
during unilateral ureteral obstruction (abstr.), 476
Pores
in glomerular slit diaphragm, 48
Postobstructive kidneys
impaired urinary concentrating ability and vasopressin-dependent cyclic AMP in (abstr.), 455
Potassium
homeostasis, and kidney, 1
serial measurement of, in chronic renal failure (abstr.), 460
Potential difference
profile of the distal tubule, 368
Prazosin
physiological evaluation of (abstr.), 440
Pregnancy
circulation during (abstr.), 437
Priapism
in hemodialysis patients (abstr.), 125
Prolactin

effect on renal secretion of water (abstr.), 468
Prostaglandins
effect of salt intake on (abstr.), 442
erythropoietic effects of (abstr.), 477
inhibition by meclofenamate (abstr.), 488
role in natriuresis following extracellular fluid volume expansion (abstr.), 473
treatment of hepatorenal syndrome with (abstr.),
Protein excretion
relationship with amylase and lysozyme excretion (abstr.), 485
Protein phosphorylation
effect of parathyroid hormone and cyclic AMP on (abstr.), 397
Protein restriction
effect on urea excretion, 303
Proteins
aldosterone-induced, in toad bladder and rat kidney (abstr.), 490
Proteinuria
in aminonucleoside nephrosis, 219
atypical nondiabetic (abstr.), 61
C3b inactivator clearance in (abstr.), 450
in congenital nephrotic syndrome, 255
effect of angiotensin on, 105
glomerular capillary wall, 212
glomerular filtration barrier and, 197
glomerular slit diaphragm, 48
orthostatic, incidence of (abstr.), 410
Proximal nephron
brush border and lateral cell walls in, 343
correlation of cell shape to reabsorption in (abstr.), 493
shape of epithelial cells and intercellular channels in (abstr.), 493
Proximal reabsorption
impairment of the filtration-related component of (abstr.), 491
Proximal tubule
altered structure of tight junctions with volume expansion (abstr.), 478
anion absorption by (abstr.), 490
carbon dioxide transport in (abstr.), 492
effect of glucose on reabsorption of water in (abstr.), 493
transepithelial potential difference in (abstr.), 473
urea secretion by the straight section of (abstr.), 482
X-ray microanalysis of (abstr.), 463
Pruritus
uremic, treatment of (abstr.), 427
Pseudohypoparathyroidism
defective calcium reabsorption in (abstr.), 402
Psychiatric evaluation
for a hemodialysis-transplant program (abstr.), 120
Purpura nephritis
C'3 glomerular deposits in (abstr.), 452
Pyelonephritis
deficiency of thymus-derived lymphocytes, 80

Renal allograft
immopathologic studies after rupture (abstr.), 501
Red blood cells
combined effect of testosterone and prostaglandin on the volume of (abstr.), 458
Rehabilitation
after transplantation (abstr.), 126
Renal blood flow
bradykinin alterations in (abstr.), 475
in essential hypertension, 42
impairment of autoregulation by chemical sympathectomy (abstr.), 481
influence of sodium intake on (abstr.), 274
Renal cortical fibrinolytic activity
platelet inhibition of (abstr.), 446
Renal disease
differential diagnosis of (abstr.), 405
in elderly patients (abstr.), 452
polycystic (abstr.), 464
with tubular immunofluorescent deposits (abstr.), 452
Renal failure
blood pressure regulation in (abstr.), 428
during the first year of life (abstr.), 418
growth in, 349
hyperglucagonemia in (abstr.), 455
inactivation of gentamicin in carbenecillin in (abstr.), 421
peripheral neuropathy in (abstr.), 412
structure-function correlations in (abstr.), 461
sustained levels of *N*-acetylprocainamide in (abstr.), 423
Renal function
effect of expansion of renal parenchymal volume on (abstr.), 478
Renal insufficiency
hydrogen ion homeostasis in (abstr.), 485
Renal ischemia
effect on cell membrane function (abstr.), 462
Renal medulla
concentration gradient due to urea cycling (abstr.), 469
Renal plasma flow
effect on glomerular dynamics in dogs (abstr.), 487
Renal tubular acidosis
evidence for two mechanisms in (abstr.), 461
screening for, with urinary citrate (abstr.), 415
transient primary distal (abstr.), 413
Renal tubular membranes
immunologic characterization of (abstr.), 447
Renal vein thrombosis
at the Mayo Clinic (abstr.), 421
Renin
blood pressure-sodium/volume renin interrelations in renal failure (abstr.), 124
cardiovascular complications in hypertensive patients (abstr.), 443
effect of aging on, 325
effect of beta-adrenergic blockade on (abstr.), 445
effect of calcium and parathyroid hormone administration on (abstr.), 12
effect of indomethacin on (abstr.), 130
failure of $NaHCO_3$ and $KHCO_3$ to inhibit (abstr.), 440
furosemide-induced secretion of (abstr.), 437
in hypertensive kidney allograft recipients (abstr.), 124
intrarenal release mechanisms of, 158
and mean blood pressure and premarin (abstr.), 442
in a patient with hyperreninemia and vasoconstriction (abstr.), 438
renal venous sampling (abstr.), 445
Renogram
in diagnosis of acute posttransplant renal failure (abstr.), 497

Renotropin
azotemic inhibitors to (abstr.), 487
Ribosomes
analysis by gel electrophoresis (abstr.), 452

Sarcoid
infiltration leading to reversible renal impairment (abstr.), 417
Scinigraphy
of the hips of hemodialysis and transplant patients (abstr.), 399
Shock
intrarenal blood flow in corotid sinus nerve stimulation and hemorrhage, 135
Sickle cell nephropathy
tubular reabsorption of phosphate in (abstr.), 398
Sickle cell trait
association with polycystic kidney disease (abstr.), 422
Single nephron filtration
distribution of, in newborn dogs (abstr.), 481
Single nephron glomerular filtration rate
calcium ion antagonist to prevent decrease in (abstr.), 477
effect of sodium intake on, 14
Sjögren's syndrome
with immune-complex tubulo-interstitial renal disease (abstr.), 453
Snake bite
acute renal failure due to (abstr.), 121
Sodium
aldosterone receptor occupancy and transport of (abstr.), 474
effects of cadmium ion on transport of (abstr.), 479
effect of hepatic venous obstruction on the excretion of (abstr.), 469
insulin and aldosterone-induced transport of (abstr.), 471
insulin stimulation of transport of (abstr.), 494
retention in experimental membranous nephropathy (abstr.), 468
renal response to deprivation and loading (abstr.), 406
Sodium acetate
myocardial depressant effects of (abstr.), 427
Sodium reabsorption
effect of baroreceptor stimulation on (abstr.), 465
effect of renal nerve stimulation on (abstr.), 467
in uremia, 14
Steroid therapy
with methylprednisolone (abstr.), 498
Surface areas
of brush border and lateral cell walls, 343
Sympathetic nervous system
carotid sinus nerve stimulation, 135
Systemic lupus erythematosus
antinuclear factor patterns in (abstr.), 454
bacterial toxins and lupus nephritis (abstr.), 274
biopsy specimens with immunologic data (abstr.), 449
hyperreninemia without hypertension in (abstr.), 439
silent renal involvement in (abstr.), 449
survival of patients with (abstr.), 411

Technical note
chronic repuncture micropuncture, 53
osmometric measurement of CO_2, 56
Thymus-derived lymphocytes
in pyelonephritis, 80
Thyroid
function in chronic renal failure (abstr.), 125
Transferrin
in uremic patients, and ascites (abstr.), 421
Transplantation
acute renal failure after (abstr.), 500
body composition following (abstr.), 495
bone disease after (abstr.), 426
computer assisted assessment of function after (abstr.), 127
cyclophosphamide as a substitute for azathioprine after (abstr.), 123
cytomegalovirus infection with renal allograft, 387
death more than three years after (abstr.), 499
disseminated cocidioidomycosis in renal recipients (abstr.), 495
histocompatibility testing for (abstr.), 130
hypercalcemia after (abstr.), 124
hyperkalemia after (abstr.), 496
hyperparathyroidism after (abstr.), 399
hypertension after (abstr.), 123
immune response patterns (abstr.), 131
long-term results of (abstr.), 498
lymphoceles in homograft recipients (abstr.), 129
lymphocyst formation in renal recipients (abstr.), 495
organ preservation of cadaver kidney (abstr.), 132
papillary necrosis after (abstr.), 497
in patients with previous history of malignancy (abstr.), 502
perfusion injury in (abstr.), 502
pneumococcal sepsis in renal allograft recipients (abstr.), 499
prophylactic irradiation therapy in (abstr.), 498
pulmonary aspergillosis in recipients (abstr.), 498
rehabilitation after (abstr.), 126
renal vein thrombosis in (abstr.), 501
smooth muscle cell proliferation in arteries after (abstr.), 128
steroid schedule and survival after (abstr.), 501
test for intolerance to immunosuppression in recipients (abstr.), 496
unilateral nephrectomy, 166
urinary gamma-glutamyl transpeptide in (abstr.), 339
urological complication of (abstr.), 500
Triiodothyronine
with euthyroidism in chronic renal failure (abstr.), 420
Tryptophan
in uremia (abstr.), 124
Tuberculosis
steroids in (abstr.), 120
in transplant patients (abstr.), 500
Tubular cell
role of basement membrane and protein concentration in determination of renal volume of (abstr.), 484
Tubular secretion
of diphosphonates, 6
Tubuloglomerular feedback
effect of sodium chloride on (abstr.), 482

Ultrastructure
glomerular filtration barrier, 197
juxtamedullary glomerular arterioles, 239
proteinuria in aminonucleoside nephrosis, 219

Urea
effect of protein restriction and glucocorticoid administration on, 303
Uremia
after subsidence of acute poststreptococcal glomerulonephritis (abstr.), 419
arginine metabolism in (abstr.), 464
beta-adrenergic blockade in (abstr.), 458
calcium absorption in, 320
calcium binding in the duodenal mucosa in, 110
effect of blood loss on iron in (abstr.), 127
effect of intestinal bacteriostasis on nitrogen metabolism in (abstr.), 461
growth in, 349
kidney cortex in (abstr.), 456
lymphocyte function in (abstr.), 446
phenylalanine and tyrosine metabolism in (abstr.), 459
salivary and serum biochemical indexes in (abstr.), 425
skeletal resistance to parathyroid hormone in (abstr.), 401
vascular and visceral calcification in (abstr.), 400
vitamin B_6 requirement in (abstr.), 428
Uremic cardiomyopathy
ventriculography and hemodynamic studies in (abstr.), 419
Uremic pericarditis
incidence, mortality and effects of treatment on (abstr.), 424
thirty-eight cases of (abstr.), 433
Uric acid
excretion of (abstr.), 470
pathogenesis of the gouty kidney, 65
transport in pig kidney (abstr.), 339
Urinary acidification
selective inhibition of, by iodination (abstr.), 478
Urinary tract infection
Escherichia coli, 233
Escherichia coli O antigen in, 316
lactic dehydrogenase in the diagnosis of, 176
Urography
in renal failure (abstr.), 121
Vascular sensitivity
to noradrenaline, 149
Vasodilation
and renal interstitial pressure and fractional sodium excretion (abstr.), 485
Vasopressin
action of solute concentration on (abstr.), 488
action on tight junctions of toad bladder (abstr.), 474
antidiuretic action of, 292
effect of fluid reabsorption by Henle's loop (abstr.), 481
effect of prostaglandin synthesis inhibition on (abstr.), 468
relationship of aggregated intramembranous particles to water permeability in toad bladder treated with (abstr.), 481
stimulation of separate, pH-dependent system for water and urea movement (abstr.), 470
Virus
cytomegalovirus infection with renal allograft, 387
Vitamin B
response of uremic patients to (abstr.), 434
Vitamin D
calcium absorption in chronic renal disease, 320
comparative effects in normal and uremic man (abstr.), 398
effect of decreased renal mass and/or uremia on (abstr.), 404
effectiveness of administration in dialysis patients (abstr.), 126
enhancement of distal tubular calcium reabsorption (abstr.), 404
long-term therapy with $1,25(OH)_2CC$ in dialysis bone disease (abstr.), 130
Volume expansion
and collecting duct secretion (abstr.), 468
effect of aortic clamping on proximal tubular sodium during (abstr.), 476
effect on proximal tubule function and sodium and chloride excretion (abstr.), 476
functional behavior of the distal nephron during (abstr.), 472
glomerulonephritic and remnant kidneys before and after (abstr.), 464
prevention of the proximal tubular effects of (abstr.), 490
and renal cyclic adenosine monophosphate (abstr.), 475

Smith, J. C., See VERRIER-JONES, MELLER, MCLACHLAN, SUSSMAN, ASSCHER, MAYON-WHITE, LEDINGHAM, SMITH, FLETCHER, SMITH, JOHNSTON and SLEIGHT S-85
Sussman, M., See VERRIER-JONES, MELLER, MCLACHLAN, SUSSMAN, ASSCHER, MAYON-WHITE, LEDINGHAM, SMITH, FLETCHER, SMITH, JOHNSTON and SLEIGHT S-85

Thomas, Virginia, Marvin Forland and Alexis Shelokov. Antibody-coated bacteria in urinary tract infection S-20
Thurau, Klaus. Modification of angiotensin-mediated tubulo-glomerular feedback by extracellular volume S-204
Tree, Malcolm, See BEEVERS, BROWN, FRASER, LEVER, MORTON, ROBERTSON, SEMPLE and TREE S-183

Utley, W. L. F., See ROLLESTON, SHANNON and UTLEY S-59

Vane, J. R., See MCGIFF and VANE S-264
Verrier-Jones, E. R., S. T. Meller, M. S. F. McLachlan, M. Sussman, A. W. Asscher, R. T. Mayon-White, J. G. G. Ledingham, J. C. Smith, E. W. L. Fletcher, E. H. Smith, H. H. Johnston and G. Sleight. Treatment of bacteriuria in schoolgirls S-85

Weidmann, Peter, and Morton H. Maxwell. The renin-angiotensin-aldosterone system in terminal renal failure S-221
Williams, J. D., William Brumfitt, A. M. Geddes, E. H. Kass and Jan Winberg. Summary of panel discussion on treatment S-144
Winberg, J., T. Bergström and B. Jacobsson. Morbidity, age and sex distribution, recurrences and renal scarring in symptomatic urinary tract infection in childhood S-101
Winberg, Jan, See WILLIAMS, BRUMFITT, GEDDES, KASS and WINBERG S-144

Subject index

Supplements to Kidney International

Supplements 4 and 5, Volume 8, 1975: Urinary Tract Infection; Hypertension and the Kidney

Anemia
  and malignant phase hypertension, S-254
Aldosterone
  effect of sodium intake on, S-285
  in terminal renal failure, S-221
Angiotensin
  clinical value of estimations, S-183
Angiotensin II
  in renal hypertension, S-165
  and tubulo-glomerular feedback, S-204
Angiotensin-salt hypertension
  and renomedullary interstitial cells, S-274
Antibodies
  bacteria coated with, in urinary tract infection, S-20
  to *Escherichia coli* in urinary tract infection, S-23
Antibody-coated bacteria
  in urinary tract infection, S-20
Autoimmunity
  in pyelonephritis, S-44
Autoregulation
  influence on renin release and sodium excretion, S-210

Bacteriuria
  chemotherapy for S-122
  in childhood, S-101
  diagnosis of, S-3, S-12
  effects in pregnancy on maternal and fetal health, S-113
  host-parasite relationships, S-28
  natural history of, S-90, S-96
  in nonpregnant women, S-107
  penicillin therapy for, S-134
  summary of discussion on, S-20
  summary of treatment discussion, S-144
  treatment in schoolgirls, S-85
Beta-adrenergic receptors
  renin release and sodium excretion, S-210

Chemotherapy
  for bowel flora in urinary tract infection, S-122
Coagulation defects
  and malignant phase hypertension, S-254
Cooperative study
  of renovascular hypertension, S-153
Cotrimoxazole
  to control bowel flora in urinary tract infection, S-122
Cystitis
  frequency and dysuria syndrome, S-138

Diagnosis
  procedures of, in urinary tract infection, S-3
  of urinary tract infection, the difficult case, S-12
Dysuria
  and frequency, S-138

Escherichia coli antibodies
  estimation of, in urinary tract infection, S-23

Fluid and sodium balance
  in renal hypertension, S-165
Frequency and dysuria syndrome
  approach to S-138

Glomerular filtration rate
  renin release and sodium excretion, S-210
Glomerular lesions
  in pyelonephritis and reflux nephropathy, S-81

Immunity
  autoimmunity in pyelonephritis, S-44
  cellular, in pyelonephritis, S-35
Interstitial cells
  endocrine-type antihypertensive function of, S-274

Juxtaglomerular apparatus
  tubulo-glomerular feedback, S-204

L-forms
  diagnosis of urinary tract infection, S-12

Malignant hypertension
  and abnormalities of coagulation, S-254
  pathogenesis of, S-174
Measurements
  renin and angiotensin estimations, S-183
Microangiopathic hemolytic anemia
  and malignant phase hypertension, S-254

Natriuresis
  renin release and sodium excretion, S-210
Natural history
  of covert bacteriuria, S-90
  of urinary tract infection, S-96
Neutral lipid
  in renomedullary interstitial cells, S-274

Penicillins
  treatment of urinary tract infection, S-134
Platelets
  and malignant phase hypertension, S-254
Pregnancy
  effects of bacteriuria in, S-113

Prostaglandins
effect of sodium intake on, S-285
and regulation of blood pressure, S-264
Pyelonephritis
autoimmunity in, S-44
cellular immunity in, S-35
glomerular lesions in, S-81
hypertension in, S-245
reflux nephropathy, S-50

Reflux nephropathy
glomerular lesions in, S-81
in the newborn, S-59
and renal scarring, S-65
summary of discussion on, S-84
surgery in the management of, S-73
in urinary tract infection, S-50
Renal arterial pressure
renin release and sodium excretion, S-210
Renal blood flow
renin release and sodium excretion, S-210
Renal hypertension
mechanisms involved in, S-165
pathogenesis of, S-174
and pyelonephritis in children, S-245
renal artery surgery for, S-161
and renal parenchymal disease, S-237
renovascular cooperative study, S-153
Renin
clinical value of estimations of, S-183
effect of sodium intake on, S-285
in renal hypertension, S-165
in terminal renal failure, S-221
and tubulo-glomerular feedback S-204
Renomedullary hormone
in interstitial cells, S-274
Renovascular hypertension
cooperative study of, S-153
renal surgery for, S-161
R factors
in urinary tract infection, S-130

Screening
for urinary tract infection in nonpregnant women, S-107
Spontaneous hypertension
mechanisms involved in, S-165
Surgery
for renal failure and hypertension, S-161

Tubular pressure
renin release and sodium excretion, S-210
Tubulo-glomerular feedback
angiotensin-mediated, S-204

Uremia
renin-aldosterone-angiotensin system in, S-221
Uretheral syndrome
frequency and dysuria, S-138
Urinary tract infection
antibody-coated bacteria in, S-20
appraisal of diagnostic procedures, S-3
autoimmune mechanism in pyelonephritis, S-44
bacteriuria in pregnancy, S-113
bowel flora in, S-122
cellular immunity in pyelonephritis, S-35
covert bacteriuria, S-90
diagnosis in the difficult case, S-12
Escherichia coli antibodies in, S-23
host-parasite relationships in, S-28
morbidity, age and sex distribution, recurrences and renal scarring in children, S-101
natural history in adults, S-96
penicillins for treatment of, S-134
R-factors in, S-130
reflux nephropathy, S-50
screening for, in nonpregnant women, S-107
summary of treatment discussion, S-144
treatment of bacteriuria, S-85
vesico-ureteric reflux and renal scarring, S-65

Vesico-ureteric reflux
glomerular lesions in, S-81
in the newborn, S-59
reflux nephropathy, S-50
and renal scarring, S-65
summary of discussion on, S-84
surgery in the management of, S-73

Contents for Volume 8

July–December, 1975

Number 1, July 1975

Role of the kidney in potassium homeostasis: Lessons from acid-base disturbances. *F. John Gennari and Jordan J. Cohen* 1

Renal secretion of diphosphonates in rats. *Ulrich Troehler, Jean-Philippe Bonjour and Herbert Fleisch* 6

Effect of sodium intake on single nephron glomerular filtration rate and sodium reabsorption in experimental uremia. *Herbert Weber, Kang-Yann Lin and Neal S. Bricker* 14

Age-dependent characteristics of compensatory renal growth. *Joel M. Kaufman, Robert Hardy and John P. Hayslett* 21

Pathophysiology of a nephrotoxic model of acute renal failure. *Jay H. Stein, Jerome Gottschall, Richard W. Osgood and Thomas F. Ferris* 27

Altered blood volume regulation in sustained essential hypertension: A hemodynamic study. *Michel E. Safar, Gérard M. London, Yves A. Weiss and Paul L. Milliez* 42

The isoporous substructure of the human glomerular slit diaphragm. *Eveline E. Schneeberger, Raphael H. Levey, Robert T. McCluskey and Morris J. Karnovsky* 48

A technique for chronic repuncture micropuncture of dog kidney. *R. Brewer Auld, Joe H. Kim and Philip B. Reid* 53

An osmometric method for measurement of total CO_2. *Man S. Oh, Edmund S. M. Whang and Hugh J. Carroll* 56

Abstracts, The Renal Association, February 20, 1975 ... 60

Announcements 62

Number 2, August 1975

An evaluation of the pathogenesis of the gouty kidney. *Bryan T. Emmerson and P. Graham Row* 65

Heparin therapy in anti-basement membrane nephritis. *J. Michael Bone, Andrew J. Valdes, Frederick G. Germuth, Jr. and Herbert Lubowitz* 72

Selective deficiency of thymus-derived lymphocytes in experimental pyelonephritis. *Thomas Miller, Susan Burnham and Gowan Simpson* 80

Effects of extracellular fluid volume contraction and expansion on the bicarbonaturia of parathyroid hormone. *Jose A. Diaz-Buxo, Cobern E. Ott, Jean-Louis Cuche, Gary R. Marchand, David M. Wilson and Franklyn G. Knox* 88

Renal phosphate reabsorption in the rat: Effect of inhibitors. *John E. Engle and Thomas H. Steele* 98

Effect of angiotensin of the filtration of protein in the rat kidney: A micropuncture study. *Georg M. Eisenbach, Judith B. Van Liew and John W. Boylan* 105

Calcium-binding protein in the duodenal mucosa of uremic patients and normal subjects. *Peter Piazolo, Jürgen Hotz, Klaus Helmke, Hans-Eduard Franz and Mark Schleyer* 110

Abstracts, South African Society of Nephrology, July 1–2, 1974 119

European Dialysis and Transplant Association, August 26–29, 1975 123

Announcements 134

Supplement No. 4, August 1975

Proceedings of a Symposium on

Urinary Tract Infection

London, England

September 23-24, 1974

Preface. *A. W. Asscher and W. Brumfitt* S-1

Diagnosis of urinary tract infection: Appraisal of diagnostic procedures. *Jay Y. Gillenwater* S-3

Diagnosis in the difficult case. *Kenneth F. Fairley, Gavin F. Becker, Hildred M. Butler, D. Regina M. McDowall and David W. Leslie* S-12

Antibody-coated bacteria in urinary tract infection. *Virginia Thomas, Marvin Forland and Alexis Shelokov* S-20

Estimation of *Escherichia coli* antibodies in urinary tract infection: A review and perspective. *Erwin Neter* S-23

The host-parasite relationships in urinary tract infections. *L. Å.. Hanson, S. Ahlstedt, U. Jodal, B. Kaijser, P. Larsson, G. Lidin-Janson, K. Lincoln, U. Lindberg, I. Mattsby, S. Olling, H. Peterson and A. Sohl* S-28

Cellular immunity in experimental pyelonephritis.

George M. Kalmanson, Richard J. Glassock, Herbert J. Harwick and Lucien B. Guze S-35
Evidence of an autoimmune mechanism in pyelonephritis. *H. Losse, H. W. Intorp, A. E. Lison and C. Funke* S-44
Reflux nephropathy. *John Hodson, Thomas M. J. Maling, Patrick J. McManamon and Martin G. Lewis* S-50
Follow-up of vesico-ureteric reflux in the newborn. *G. L. Rolleston, F. T. Shannon and W. L. F. Utley* S-59
Vesico-ureteric reflux and renal scarring. *Jean Smellie, David Edwards, Nigel Hunter, I. C. S. Normand and Nina Prescod* S-65
The role of surgery in the management of vesico-ureteric reflux. *John E. S. Scott* S-73
Glomerular lesions in atrophic pyelonephritis and reflux nephropathy. *Priscilla Kincaid-Smith* S-81
Summary of invited discussion on vesico-ureteric reflux. *M. S. F. McLachlan, D. B. Moffat and P. G. Ransley* S-84
Treatment of bacteriuria in schoolgirls. *E. R. Verrier-Jones, S. T. Meller, M. S. F. McLachlan, M. Sussman, A. W. Asscher, R. T. Mayon-White, J. G. G. Ledingham, J. C. Smith, E. W. L. Fletcher, E. H. Smith, H. H. Johnston and G. Sleight* S-85
Natural history of convert bacteriuria *D. C. L. Savage* S-90
Natural history of urinary infection in adults. *L. R. Freedman* S-96
Morbidity, age and sex distribution, recurrences and renal scarring in symptomatic urinary tract infection in childhood. *J. Winberg, T. Bergström and B. Jacobsson* S-101
Screening for urinary tract infection in non-pregnant women. *Nils Alwall* S-107
The effects of bacteriuria in pregnancy on maternal and fetal health. *William Brumfitt* S-113
Summary of invited discussion on bacteriuria. *P. J. Little and J. B. Selkon* S-120
Bowel flora in urinary tract infection: The effect of chemotherapy with special reference to cotrimoxazole. *R. N. Grüneberg, Anne Leaky, M. J. Bendall and Jean Smellie* S-122
R-factors in urinary tract infection. *J. L. Harkness, Felicity M. Anderson and Naomi Datta* S-130
New penicillins in the treatment of urinary tract infection. *A. M. Geddes, D. McGhie, J. G. P. Hutchison and C. B. Mahood* S-134
Approach to the frequency and dysuria syndrome. *W. R. Cattell, H. L. Brooks, M. A. McSherry, A. Northeast and F. O'Grady* S-138
Summary of panel discussion on treatment. *J. D. Williams, William Brumfitt, A. M. Geddes, E. H. Kass and Jan Winberg* S-144
Acknowledgments S-149

Number 3, September, 1975

Intrarenal blood flow in carotid sinus nerve stimulation and hemorrhage in dogs. *John C. Passmore, Howard L. Strauss and William Z. Kolozsi* 135
Failure of heparin to affect two types of experimental glomerulonephritis in rabbits. *Wayne A. Border, Curtis B. Wilson and Frank J. Dixon* 140
Effects of jaundiced plasma on vascular sensitivity to noradrenaline. *David Bloom, Thomas A. McCalden and Clive Rosendorff* 149
Influence of ethacrynic acid on intrarenal renin release mechanisms. *Ivar Eide, Einar Løyning, Øivind Langård and Fredrik Kiil* 158
Renal function before and after unilateral nephrectomy in renal donors. *Rufino C. Pabico, Barbara A. McKenna and Richard B. Freeman* 166
Urinary lactic dehydrogenase isoenzyme 5 in the differential diagnosis of kidney and bladder infections. *Hugo F. Carvajal, Richard B. Passey, Michael Berger, Luther B. Travis and William B. Lorentz* 176
Measurement of residual glomerular filtration rate in the patient receiving repetitive hemodialysis. *Jovan Milutinovic, Ralph E. Cutler, Patricia Hoover, Barbara Meijsen and Belding H. Scribner* 185
Preparation of renal papillary collecting duct cells for study *in vitro*. *David L. Dworzack and Jared J. Grantham* 191
Announcements 195

Supplement No. 5, September 1975

Proceedings of a Symposium on

Hypertension and the Kidney

Milan, Italy

September 28-29, 1974

Introduction. *Priscilla Kincaid-Smith and Morton H. Maxwell* S-151
Cooperative study of renovascular hypertension: Current status. *Morton H. Maxwell* S-153
Renal artery surgery for renal failure and hypertension. *Trefor O. Morgan* S-161
Mechanisms involved in renal hypertension. *G. Bianchi, U. Fox, D. Pagetti, A. M. Caravaggi, P. G. Baer and E. Baldoli* S-165
Further studies on the pathogenesis of the malignant course of renal hypertension in rats. *Jan Möhring, Barbel Möhring, Maria Petri, Doris Haack, Eberhard Hackenthal and Franz Gross* S-174
The clinical value of renin and angiotensin estimations. *D. Gareth Beevers, Jehoida J. Brown, Robert Fraser, Anthony F. Lever, James J. Morton, J. Ian S. Robertson, Peter F. Semple and Malcolm Tree* S-183
Modification of angiotensin-mediated tubulo-glomerular feedback by extracellular volume. *Klaus Thurau* S-204
Influence of autoregulation on renin release and sodium excretion. *Fredrik Kiil* S-210
The renin-angiotensin-aldosterone system in terminal renal failure. *Peter Weidmann and Morton H. Maxwell* S-221
Chronic renal parenchymal disease and hypertension. *Jan Brod* S-237
Hypertension in children with chronic pyelonephritis.

Nancy H. Holland, Theodore Kotchen and Dinyar Bhathena S-245
Abnormalities of coagulation and the development of malignant phase hypertension. *H. Gavras, N. Oliver, J. Aitchison, C. Begg, J. D. Briggs, J. J. Brown, P. W. Horton, F. Lee, A. F. Lever, C. Prentice and J. I. S. Robertson* S-254
Prostaglandins and the regulation of blood pressure. *J. C. McGiff and J. R. Vane* S-264
Endocrine-type antihypertensive function of renomedullary interstitial cells. *E. E. Muirhead, G. A. Germain, F. B. Armstrong, B. Brooks, B. E. Leach, L. W. Byers, J. A. Pitcock and Peggy Brown* S-273
Effect of sodium intake on prostaglandin A, renin and aldosterone in normotensive humans. *Wanida Payakkapan, Ahmad A. Attallah, James B. Lee and Albert A. Carr* S-285

Number 4, October 1975

The primary glomerular filtration barrier: Basement membrane or epithelial slits? *Marilyn G. Farquhar* .. 197
Permaselectivity of the glomerular capillary wall: III. Restricted transport of polyanions. *Ramsay L. S. Chang, William M. Deen, Channing R. Robertson and Barry M. Brenner* 212
An ultrastructural study of the mechanisms of proteinuria in aminonucleoside nephrosis. *Graeme B. Ryan and Morris J. Karnovsky* 219
Experimental *Escherichia coli* urinary infection in the rat. *Peter W. Taylor and Kosta G. Koutsaimanis* 233
Ultrastructural demonstration of a connection between afferent and efferent juxtamedullary glomerular arterioles. *Arne Ljunggvist* 239
Angiotensin II: Renal localization in glomerular mesangial cells by autoradiography. *Mary J. Osborne, Bernard Droz, Philippe Meyer and François Morel* .. 245
Selectivity of proteinuria in congenital nephrotic syndrome of the Finnish type. *Nillo-Pekka Huttunen, Erkki Savilahti and Juhani Rapola* 255
Effect of acute and chronic metabolic acidosis on serum immunoreactive parathyroid hormone in man. *Fredric L. Coe, John J. Firpo, Jr., Don L. Hollandsworth, Laurence Segil, Janet M. Canterbury and Eric Reiss* 262
Abstracts, Société de Néphrologie, February 1, 1975 274
Announcements 276

Number 5, November 1975

Dilution acidosis and contraction alkalosis: Review of a concept. *Serafino Garella, Bruce S. Chang and Sewell I. Kahn* 279
Multiple cyclic nucleotide phosphodiesterases in rat kidney. *Paul F. Gulyassy, J. Robert Farrand and H. David Gugler* 284
Role of the disulfide bridge and the C-terminal tripeptide in the antidiuretic action of vasopressin in man and the rat. *J. H. Cort, O. Schück, J. Stříbrná, J. Škopková, K. Jošt and J. L. Mulder* 292
Effects of dietary protein restriction and glucocorticoid administration on urea excretion in rats. *Mark A. Knepper, Robert A. Danielson, Gerald M. Saidel and Kent H. Johnston* 303
Immunogenicity of *Escherichia coli O* antigen in upper urinary tract infection. *Judith A. Whitworth, Kenneth F. Fairley, Cynthia M. O'Keefe and Thomas E. Miller* 316
Effect of 25-hydroxycholecalciferol on calcium absorption in chronic renal disease. *W. Ernest Rutherford, Joan Blondin, Keith Hruska, Robert Kopelman, Saulo Klahr and Eduardo Slatopolsky* 320
Effect of aging on plasma renin and aldosterone in normal man. *Peter Weidmann, Sylvianne De Myttenaere-Bursztein, Morton H. Maxwell and José de Lima* 325
A modification of the fluorescence method for microinulin determinations. *John D. Conger, Howard N. Rhoads, Susan N. Christie and Thomas J. Burke* 334
Abstracts, The Renal Association, May 21, 1975 338
Announcements 340

Number 6, December 1975

Surface areas of the brush border and lateral cell walls in the rabbit proximal nephron. *Larry W. Welling and Dan J. Welling* 343
Growth in experimental renal failure: Role of calorie and amino acid intake. *Mario Diaz, Claire Kleinknecht and Michael Broyer* 349
Mechanism of diuretic response to increased left atrial pressure in the anesthetized dog. *Antoine de Torrente, Gary L. Robertson, Keith M. McDonald and Robert W. Schrier* 355
Effects of furosemide on low-dose mercuric chloride acute renal failure in the rat. *Robert C. Ufferman, John R. Jaenike, Richard B. Freeman and Rufino C. Pabico* 362
Transepithelial potential difference profile of the distal tubule of the rat kidney. *Lindsay J. Barratt, Floyd C. Rector, Jr., Juha P. Kokko, C. Craig Tisher and Donald W. Seldin* 368
Renal response to short-term hypocapnia in man. *Norman Gledhill, Gregory J Beirne and Jerome A. Dempsey* 376
Transmission of cytomegalovirus infection with renal allograft. *Robert F. Betts, Richard B. Freeman, R. Gordon Douglas, Jr., Thomas E. Talley and Barbara Rundell* 387
Announcements 395
Abstracts, American Society of Nephrology, November 25-26, 1975 397
Indexes 505
